The dam of Red Bud 4901 and 4902 is PCC Red Bud 310D - she is a picture perfect cow sired by a Red Angus bull and out of a Charolais influenced cow. This added dimension gives these two heifers an extra punch as evidenced by their completeness.

Low Rider daughters have worked for us for many years. Mating Isobel 7007 to The Flip Side should produce an easy calving, flash roan calf. Her Texas Pride heifer calf demonstrates the quality this cow can produce.

WHR Future Hendrix 4907 represents one of the top bull prospects we have raised recently. His roan color pattern will catch your eye. His disposition makes him easy to work with. His dam, Cecilia 2907, was a winning show heifer and is one our top donors. We have confidence in 4907 as a future herd sire, if someone does not decide he qualifies as a top steer prospect.
